01 JUL 2005

Mr. Joe Haller
Environmental Engineer
Wellman Dynamics Corporation
1746 Commerce Road
Creston, Iowa 50801

Dear Mr. Haller:

RE: Approval of Current Conditions Report and Response Letter for
Wellman Dynamics Corporation
Creston, Iowa
RCRA Facility I.D. No. IAD065218737
Docket No. RCRA-07-2003-0167

The U.S. Environmental Protection Agency (EPA) has completed our review of Wellman Dynamics' comment response letter with enclosures, dated June 13, 2005, for the Current Conditions Report for the referenced facility. Based on our review of the comment responses and text revisions, Wellman Dynamics has adequately addressed our comments. Therefore, the Current Conditions Report, which consists of the May 2004 report and the June 13, 2005 response letter, is hereby approved.

In accordance with the referenced Administrative Order on Consent, Attachment 2, Scope of Work for a RCRA Facility Investigation (RFI), Section VII, Task VI, the RFI Workplan (Task II) is due 60 days from receipt of this approval letter. The RFI Workplan shall be completed in accordance with the cited Scope of Work requirements. The purpose of the RFI Workplan in combination with the Current Conditions Report is to provide enough information to define the vertical and horizontal extent of contamination to the extent necessary to assess risks to human health and environment.

If you have any questions concerning this matter, please give me a call. I may be reached at (913) 551-7627.

Sincerely,

Patricia Murrow
